CalHOPE Layers of Intervention and Support

CalHOPE addresses the stress and anxiety that people may feel due to isolation, health challenges, economic uncertainty, food insecurity and other negative consequences of the COVID-19 pandemic.
The CalHOPE project was originally scheduled to end on August 8, 2021.

Given the ongoing impact of COVID paired with the steady demand for CalHOPE services, California applied for a 6-month extension request.

The 6-month extension request was submitted in June, and at the end of August, a 30-day extension was granted, but the longer-term extension request was still pending.

While the future of CalHOPE remained unclear, our project partners continued to serve their communities, but faced many challenges given uncertainty about the future of the program.
Disaster Outreach Services: Primary Services

- Brief Educational/Supportive Contact: 30,488 (63%)
- Individual Crisis Counseling: 7,341 (15%)
- Group Counseling/Public Education: 10,644 (22%)
Since July, demand for CalHOPE services remained steady:

- The number of Individual Crisis Counselling units **decreased** by 391
- The number of Group Counseling/Public Education units **remained steady** (10,529 units in July vs. 10,644 units in August)
- The number of Brief Educational/Supportive Contact units **increased** by 9,202
Individual crisis counseling services represent encounters that are at least 15 minutes between CalHOPE staff and people in need of services.
